WHEAT RALLIES SHARPLY ON SMALLER RECEIPTS.

LIVERPOOL ALSO, HELPS BY STEADY PRICES.

Corn Continues Strong, but Buyers Are Not Enthusiastic-

Demand for May Oats.

alling off in receipts everywhere caused strength in wheat to-day, May at one time showing a gain of 15c from the low point, A slight reaction occurred late in the day on realizing, but closing prices were strong, May being up \$40 %c. May corn closed 14c higher, oats were up 14c and provisions from 24c to 15c higher. WHEAT.

A builish sentiment prevailed among wheat traders at the opening, due partly wheat traders at the opening, due partly to the Government report on acreage and condition of the fall-sown wheat. This factor, however, was not as potent an influence as was the firmness in the Liverpool market in the face of the weakness that prevailed here yesterday. The effect of reports of rain in Argentina was also just beginning to be felt, and the continued small receipts in the Northwest and Southwest were instrumental in bringing out an active general demand. May was up 1500 150 to 1500 c at the start, opening at 815 c, and with only scattering selling the price gradually advanced. There was considerable covering by those who had oversold on the break yesterday, and commission houses were also active in the buying. The strength in outside markets and the small primary receipts intensified the desire to buy, and late in the day when it was announced that clearances were much larger than usual there was a sharp demand, which carried May up to 825 c, a gain of 15 c from the low point. A part of the gain was lost on profit-taking, but the close was strong, with May \$4.6 c higher at \$15 c. Clearances of wheat and flour were equal to \$50,000 bu. Primary receipts were 785,600 bu., against \$25,600 bu., a year ago. World's exports of wheat and flour, according to Bradstreet, were 4,607,00 bu., against \$25,600 bu., a year ago. CORN.

CORN.

Corn continues strong, although no great amount of enthusiasm was displayed on the buying side. It did not require much the baying side. It did not require much buying to advance prices, however, as offerings were light. The Dec, delivery was in fair demand from shorts, who are becoming somewhat alarmed at the smallness of receipts and light stocks. May opened a shade to \$46% higher at 43% c to 43%c, ranged between 43% and 43%c, closing at 434,443%c. Local receipts were 150 cars, with 3 of contract grade.

There was an urgent demand for May cats from commission houses and shorts, and some of the buying was credited to big longs. The strength in wheat and corn heiped to advance prices, as did also the small receipts. Scalpers took advantage of the better price to secure profits, and in doing so caused a slight reaction, but the close was strong. May opened 1sc to 14c higher at 351-c to 353-c and sold between 351-c and 37c, closing at 355-c. Docal receipts were 184 cars.

trade ruled very irregular, but mainly steady.

Receipts this week total \$,500 head, showing a decrease of 5,100 head, compared with the same period last week, and 2,400 head, with the corresponding period last mouth, but were \$60 head carrege to the receipts in the beef as the trade this week, as there has been a a the trade this week, as there has been a a the trade this week, as there has been a characteristic to the trade this week, as there has been a a the trade this week, as there has been a characteristic to the receipts in the beef department, and as Texas supplies have also ruled light, the demand had not been overrun. On Tuesday the trade was a little higher, but this was lost on Thursday, which practically places the close of the market fully steady with this day a week ago. A very small quota of the offerings have shown anything like good flesh, most of the cuttle this week being of common to nedium class. Although the trade shows but little change from last Friday, it has been a case of slow markets each day this week, and most sellers felt that the continued steadness of the markets was due to the moderateness of supplies.

Wool.

Besten, Dec. II.—The Commercial Builetin will to-morrow say:

The wool market is strong and ective. The mills have received large orders for light-weight fabrics and are showing samples of new goods for the fall of 1994. In the latter, overcoatings have moved satisfactorily in every respect. This improvement in the business in goods has led to the larger purchases of the raw material, as the mills are lightly stocked.

Wool values are firm and hardening. The temporary flurry of weakness has entirely diseppeared. The foreign markets are also firmer, and higher prices are quoted at Melbourne and Buenos Ayres, with active operations, considerable interest being shown by American buyers. The shipments of wool from Boston to date from Dec. 21, 1992 are 222,292,50 pounds, against 219,319,239 pounds at the same date last year.

The receipts to date at 256,255,635 pounds, against 203,945,325 pounds for the same period last year.
